

	Awareness	Onboarding	First Post	Feed Engagement	Daily Prompt
What does the user do?	- Hears about BeReal from friends. - Searches for the BeReal app on the App Store. - Views the screenshots, descriptions and ratings from the app listing. - Downloads the app.	- Signs up using a name, phone number, birthday, and a username. - Verifies the phone number. - Grants key permissions: camera, notifications. - Selects friends to follow from the recommended list.	- Attempts to access the feed but finds it locked until a BeReal is posted. - Captures a dual-camera photo and selects an audience to share with. - Publishes the BeReal, unlocking the feed.	- Browses the feed and views friends' posts. - Reacts using RealMojis and adds comments on friends' posts. - Opens individual posts and profiles.	Clicks on the push notification and opens the app to post the daily BeReal within the 2-minute window.
What does the user think?	'Is BeReal just another social media app like Instagram and Snapchat?' 'What will I get from downloading this app?' 'Why are so many people using this app?' 'I should try it out since my friends are using it.'	'Is it safe to give them permission to use my camera?' 'What if they send continuous notifications after I give them permission?' 'Who all should I add from the suggested list of friends?' 'I thought setup would be complicated but that was quick.'	'Why can I not access the feed?' 'Oh, I have to post first every day before I can see my friends' posts.' 'How do I hold my phone perfectly to get exactly what I want on both cameras?' 'Oh, so posting was easier than I thought.'	'I wonder what my friends have been posting.' 'Should I interact with my friends' posts?' 'Oh, I can use RealMojis and comments.' 'I want to see what else my friends have been posting and what their profile looks like.' 'Oh, so this is what people share from their everyday life.'	'Oh, that was a surprising notification.' 'I should try to post before the countdown ends.' 'Should I skip posting today since I am not in a situation where I can post a picture?' 'I want to try and catch tomorrow's posting time as well.' 'I wonder when the notification will appear tomorrow.'
What does the user feel?	- Doubtful: Unsure whether BeReal is different from other social media apps. - Curious: Friends using the app and recommending it. - Interested: Interested in trying an app recommended by friends.	- Cautious: Must give permissions for the camera and notifications. - Confident: The sign-up process was easier than expected.	- Confused: Finds a locked feed even after signing up. - Uncertain: Clicking a picture with a dual camera. - Relieved: Creating a post is a quick process.	- Curious: Seeing what friends have posted. - Engaged: Reacting with RealMojis and comments on friends' posts. - Interested: Exploring people's profiles and posts. - Surprised: People have shared everyday moments in their posts.	- Surprised: Receives a notification with a countdown. - Pressure: Needs to post within the time limit. - Anticipation: Wonders when the next notification will appear.
